

Introduction to Exercises

Overview

This course will provide students with an introduction to Homeland Security Exercise and Evaluation Program (HSEEP) concepts and practices as well as tools and templates to implement a training and exercise program at the facility level.

Learning Objectives:

1. Introduce students to HSEEP concept
2. Introduce students to HSEEP planning, conduct, and evaluation methodologies
3. Discuss best practices in developing and maintaining training and exercise programs at the hospital/healthcare facility
4. Provide networking opportunities for AzCHER Central members

Target Audience

Students should include:

- Hospital/Healthcare Emergency Managers
- Hospital/Healthcare planning and training personnel
- Members of ancillary or adjacent programs that interact with their facility Emergency Management teams (e.g. Safety, Risk Management, Quality Improvement, Physicians, Emergency Department)
- Emergency Management students or interns

Prerequisites

- ICS-100: Introduction to Incident Command System
- IS-700: National Incident Management System, an Introduction
- AzCHER Central EM 101 (or commensurate experience)

Course Length

4 hours
